Manjunath Kalkutagi

9972381627 | mnkalkutagi@gmail.com | Bangalore, Karnataka

PROFILE

Seasoned Back-End Developer with expertise in Node.js, React, MongoDB, and Elasticsearch.

- **3+ years of experience** crafting robust backend systems with Node.js, React, MongoDB, and Elasticsearch.
- **Proven track record** of increasing API response times by 30% through microservices architecture.
- **Adept at** handling complex UI interactions and maintaining optimal application performance.
- **Master of data:** Implementing data models, access patterns, and real-time processing solutions.
- **Collaborative spirit:** Partnering with front-end teams to deliver seamless user experiences.
- **Problem-solving ninja:** Identifying and resolving technical challenges with analytical prowess.

EMPLOYMENT HISTORY

Vymo | Bangalore, Karnataka
Member of Technical Staff | 09/2022 - 12/2023
Lead Management & Data Optimization Specialist.

Enhanced sales efficiency and data integrity through innovative software solutions.

- **Automated lead purging:** Developed a system that identifies and removes inactive leads (90+ days, no updates) from databases, optimizing storage and boosting data access speeds.
- **Streamlined Salesforce integration:** Led the integration of Mahindra Finance CRM with Salesforce, fostering seamless lead management and enhancing user workflows.
- **Crafted bespoke modules:** Architected custom modules for HDFC and other clients, streamlining their sales team workflows and boosting efficiency by 23%.
- **Enhanced data accessibility:** Generated comprehensive lead reports via cron jobs and SFTP, improving data analysis and targeted lead generation.
- **Tackled critical issues:** Effectively addressed product-level bugs (geolocation, timezone) and ensured high availability of mission-critical systems for uninterrupted service.

Technical Expertise:

- Proficient in Node.js, Express, MongoDB, MySQL, Elasticsearch, React, Linux, and GIT.
- Skilled in automation, data management, and Salesforce Integration, API Integration.
- Strong problem-solving and analytical skills, delivering high-quality solutions.

MountBlue | Bangalore, Karnataka
Software Developer Engineer | 05/2021 - 08/2022
Custom Lead & Partner Module Development for Vymo (MountBlue)

I leveraged Node.js expertise to craft custom solutions for Vymo clients, bridging the gap between their needs and platform capabilities.

- **Crafted and deployed a custom lead and partner module for HDFC,** tailor-made to client needs and **boosting workflow efficiency**.
- **Spearheaded the development of seamless Vymo integrations,** enhancing platform functionality and user experience.
- **Collaborative problem solver:** Partnered closely with Vymo client teams, understanding requirements, designing solutions, and providing technical guidance, resulting in increased productivity and user satisfaction.
- **Bug slayer:** Identified and resolved critical bugs across Support, Quality, and Internal teams, ensuring unwavering platform stability and reliability.
- **Data-driven reporting revolution:** Built a comprehensive suite of 35 reports using APIs, Elasticsearch, and MongoDB, achieving a **43% reduction in report count** while maintaining complete data coverage.
- **Streamlined data access:** Consolidated 35 reports into 20 concise yet comprehensive reports, leveraging Elasticsearch for efficient data extraction and MongoDB for user data management, delivering a **user-friendly, data-driven experience**.

Freelancer | Belgaum, karnataka
Software Developer | 12/2020 - 05/2021
Mandi Market Price

- Day to day extracting data from Data.gov.in APIs for price charts for mandi market from all districts with data visualization for the better relational price of products.

Word to PDF
- Used docx2pdf python library to convert word/text documents to PDF format with efficiency.

Skills

Programming, JavaScript, MySQL, MongoDB, Elasticsearch, Python, Node.js, Express.js, React

Education
